

## Art

At Paganel, through the school's delivery of a broad and balanced curriculum the artistic knowledge and skills outlined in the National Curriculum (2014) are taught discretely to our children within the context of a range of exciting and engaging topics which aim to provide opportunities to for children to embody some of the highest forms of human creativity.

The art curriculum at Paganel aims to support the children in developing the knowledge and skills to experiment, invent and create their own works of art, craft and design. As the skills of the children progress they are challenged to think critically and develop a more rigorous understanding of art and design. By the end of their education at Paganel our children should demonstrate a proficiency in drawing, painting, sculpture and other art, craft and design techniques, and be able to evaluate and analyse creative works using specialist vocabulary.

Through the school's art curriculum (as well as other cross curricular opportunities) the children develop their knowledge of how art has shaped our history and which artists have had great impact on the advancement of our nation.

It is hoped that the art curriculum at Paganel will inspire and motivate our children to actively participate in this subject area and they will leave the school with the knowledge and skills to continue to advance their creativity in the next stage of their education.
