

Year 6

Summer Term

Let's Celebrate!

Our final fantastic topic in year 6 will be all about celebrations around the world! After investigating some of the celebrations and baking cakes to get the party started, the children will be in charge of their own project.

The celebrations we will be focusing on are:

- Thanksgiving (USA)
- Cinco De Mayo (Mexico)
- Hannukah (Judaism)
- Holi (India)
- Songkran (Thailand/Buddhism)

Once the children know a bit more about our celebrations, they will work in groups of 4 to produce A1 posters displaying their hard work finding out about the festivals. They will be focusing on the geography and the history of their chosen celebration, along with the food, culture and events that happen.

To finish off the projects we will be creating pinatas from Mexico inspired by our festivals. We then plan to show off our hard work with a celebration of our learning with our family and friends, with bonus pinata breaking!

Once that is over, we invite the children to take part in a Holi or Songkran celebration involving powder paint and water to celebrate messily together. We then finally hope to finish off our year with our fantastic end of year show to the whole school and our families! We can't wait to share it with you.
